

Opening Screen

```
procedure buildOpeningPane :
  build each h-box
    make any v-boxes
    make all buttons
    make all labels
    make etc.
    add all to h-box
  add all h-boxes to openingPane
```

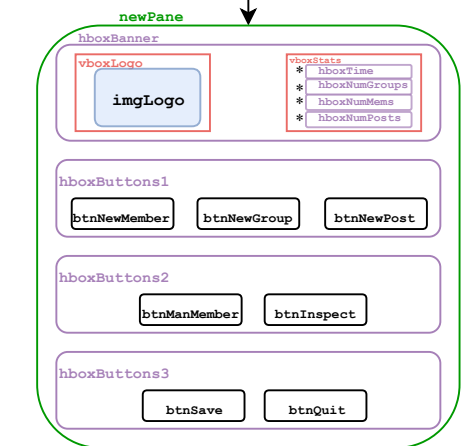

Load Session

*alternatively, these could be implemented as **Labels**

```
procedure buildLoadingPane :
  build each h-box
    build any v-boxes
    make all buttons
    make all labels
    make etc.
    add all to h-box
  add all h-boxes to loadingPane
```

New Session

```
procedure buildSessionPane :
  build each h-box
    build any v-boxes
    make all buttons
    make all labels
    make etc.
    add all to h-box
  add all h-boxes to sessionPane
```
